| 230V | 61.2410.00 | |

A-dec Manufactured Cylinders

From the raw materials to the finished assembly, A-dec manufactures hydraulic chair cylinders completely in-house.

Once machined, the components are assembled in a special room to keep debris from entering the cylinder. Then we cycle test each cylinder using ultrasonics to verify the integrity of the internal seals and perform a high pressure test up to 1500 psi. To make certain it performs flawlessly in the chair, A-dec tests each cylinder through more cycles during final chair assembly.

A-dec warrants its chair cylinders, both lift and tilt, for 10 years from the date of purchase of the chair or the cylinder.
